

Time to Go Rogue...

Internal Vacuum that Breaks all the Rules

This new technology is so amazing, easy to fit and teach the amputee... and most of all, it's enclosed in the socket!

This has changed my life! I love my ZeroPuck! I finally feel like my leg is a part of me. I know exactly where my leg is in space all the time. I can feel my foot. It is more responsive than any other system that I have tried.
