

## We make our prosthetic patients take the steps.

**Introducing Ability Prosthetics and Orthotics, Inc.'s Outcomes-Based Protocol ... the objective steps toward custom solutions.** Every amputee has concerns about receiving the right prosthesis. That's why, in every office, we utilize a unique and precise process to measure amputees' functional level and satisfaction to ensure their prosthesis fits both their bodies—and their lives—best. The 3-step Outcomes-Based Protocol results in accurate, consistent clinical prosthetic evaluations; provider accountability and validity; improved efficiencies including costs and time spent; and greater patient satisfaction. To learn more about how our Outcomes-Based Protocol is the next step in truly state-of-the-art patient care, visit [AbilityPO.com](http://AbilityPO.com).
