## OUR TEAM IS YOUR TEAM

When you have a client with a unique upper extremity requirement, it helps to work with a team of specialists. At Advanced Arm Dynamics, we are the experts in upper extremity prosthetic rehabilitation. With over 100 years of combined experience in the prosthetic industry, our consulting team offers expertise on the latest technology and techniques.

Let us help you enrich your patients lives through teamwork. Whether it is supporting your facility by designing, fitting and patient training with state of the art prosthetics, or handling unique insurance authorization challenges, we are there to help you enhance the lives of your patients.
