

Come and visit us at the ISPO World Congress in Lyon 2015

A revolution in 3D printing has arrived...

We will showcase the 3D printing concept at stand number: **102 in Forum 4-6.**

Orthaprint (3D Desktop Printer) & **Orthaflex** (Filament) features:

- **High Elasticity** – 700% stretching, memory allows it to return to normal form
- **High Speed Printing** – you can now print a pair of insoles in less than 60 minutes
- **Less Waste** - if mistakes are made; plastic materials can be recycled (as long as multiple colours are not mixed)

World leaders in O&P materials...

aortha[®] supplies and manufactures the most comprehensive range of appliance making materials in the world; the aortha[®] range includes a huge variety of:

- EVA
 - Thermoplastics
 - CAD-CAM
 - Leathers
 - Lamination Supplies
 - Fabrics
 - Carbon Composites
 - Plastazote / Poron
 - Transfer Papers
 - Adhesives
- and so much more...
