

Introducing...

Adjustability for Support and Comfort

In 2006, we introduced the adjustable Vista® Collar, changing the game for cervical care.

Now, we're changing the rules again with the adjustable Vista MultiPost Collar—increasing motion restriction, increasing comfort and improving patient compliance.

The Vista

Approved

Fully Adjustable for the Perfect Fit

Height adjustment technology allows clinicians to effectively fit various anatomies and multiple conditions.

Pivoting Occipital Panels self-adjust for optimal fit, increased support, and maximum comfort.

Superior Motion Restriction

Additional support and motion restriction without compromising patient comfort.

Attaches easily to Vista CTO and Vista CTO4—Aspen's comfortable CTO solutions.

One Size Adjustable

With six sizes in one, the Vista Collar eliminates the need for pre-sizing and simplifies inventory requirements.
