

## Innovating your future

## CAD/CAM Solutions for Medical Applications

At Delcam we are committed to providing medical and healthcare markets with powerful, dedicated software solutions for assisting medical professionals to scan, design and manufacture corrective devices.

This approach ensures:

- Reduced customer / patient waiting times
- Reduced manufacturing times
- Quicker recovery time
- Removal of unnecessary surgery / treatment
- Reduced medical & manufacturing costs
- Compressed process times
- Increased accuracy
- Dedicated workflow
