November 6 - 7, Detroit Metro Area  
15 PCE's available  
Orthotists must successfully complete a comprehensive,  
2-day training program to use this product.  
Please contact our customer service department  
for registration details.*

**SpineCor** is a dynamic system that utilizes postural re-education to target 4 key progression factors of idiopathic scoliosis: Neuro-Musculo-Skeletal Dysfunction, Growth Asymmetry, Postural Disorganization and Spinal Deformation.

Curve specification corrective movement strategies are provoked repeatedly by wearing the orthosis during normal activities of daily life. **SpineCor** allows and encourages patients to engage in activities such as sports, dance, and riding; it is easily worn underneath the patient's clothing for optimal cosmesis. US Patent No. 5,599,286

### **SpineCor Advantages:**

- 89% effective; clinically proven in a 400 patient, 10 year study
- Documented Cobb angle reductions maintained for 5 years after treatment
- Dedicated U.S. technical/clinical support staff
- Increased patient acceptance-better compliance
- Custom made to measurement from Becker Central Fabrication
- "L" code L1005
