

CUSTOM FABRICATION SERVICES

Becker Orthopedic's recently renovated Custom Fabrication Services Department is pleased to offer a full line of custom lower extremity orthoses, including standard and Oregon style laminated AFOs and KAFOs. Our new, updated orthometry forms have been redesigned to expedite order fulfillment and improve turnaround times. With competitive pricing and direct access to the largest selection of orthotic components available, Becker Custom Fabrication Services is your partner in providing your patients with high quality custom orthoses that provide optimal fit and function.
