# Tired of chasing pressure?

Let ShearBan® give you an edge in the pursuit of patient comfort.

ShearBan® complements traditional pressure management techniques, dramatically reducing shear forces between footwear, or an orthotic/prosthetic device, and the skin.

ShearBan® aids in the healing of diabetic foot ulcers, calluses and other forms of skin trauma, preserving function, endurance and comfort.

**NOW AVAILABLE**  
ShearBan Ovals  
for Diabetic  
Foot Care

**SHEARBAN**®  
*Friction Relief Technology*
