

Practitioners are singing the praises of Brightree!

Last year, Brightree delivered its 21st Century solution to the sophisticated O&P market, an industry previously forced to tolerate technical shortcomings, billing inefficiencies, and mediocre support from yesterday's software products. So it's no surprise practitioners everywhere are giving Brightree rave reviews.

Brightree has taken the industry by storm, becoming the fastest growing business management solution for O&P. We decided to let some of our newest customers sing their praises of Brightree to you.

Internet Ease

Brightree's pure Internet platform eliminates technology challenges, allowing Brightree to manage your upgrades, backups, electronic claims transmissions, price tables, and more. All you need is a PC and Internet to securely access your data and run your business anytime, from anywhere.

Not only does Brightree's Internet-based technology provide me with anytime, anywhere access to my data, but I never need to install software, manage hardware, or worry about electronic claims transmissions or backing up my data. Brightree does it all for me, safely and securely.

Dennis Clark, President, Clark & Associates Prosthetics & Orthotics

World-class Customer Care

Brightree delivers customer care that's second to none. Our support team is comprised of industry experts who are committed to answering your questions quickly and accurately ... 24x7x365. We deliver an eClaims concierge, free ongoing training, regular product enhancements, updated price tables, and more.

Choosing Brightree over other O&P software products was simple. While most software companies tell you to work within their parameters, every Brightree employee, from the CEO on down, goes out of their way to improve their solution, meet our unique needs, and make our jobs easier.

Randy Lacey, President & CEO, Prosthetic Laboratories of Rochester

Revolutionary Billing

Brightree's proven platform makes filing electronic claims to Medicare, Medicaid, and 1,750 payers a snap. Brightree users will file over 18 million claims worth \$3.3 billion in 2008.

Brightree's electronic claims and billing are better than anything else I've used. Brightree paid for itself within 3 months, as I was finally reimbursed for a large claim that my old software failed to file properly for over a year! I love Brightree!

Christine Harrison, Director of Administration, Maxcare Bionics
