

We hope to see you at our exhibit hall booth and our March 9th Technical Workshop during the 42nd Annual Meeting of the AAOP in Orlando!

Isn't it Time for an Upgrade?

You Live and Work in a Modern World.

Shouldn't Your Myoelectric Control Catch Up?

Single and dual-site EMG control is 1950's technology. Add the latest in advanced, intuitive control to upper limb prostheses. The **COMPLETE CONTROL** Pattern Recognition system is clinically engineered for today and beyond.
