

Do you feel confident on challenging terrains?

At Endolite, we understand that every person desires certain features and benefits of their prosthetic device and we understand that you would like your prosthetic to feel as natural as possible. We also know that you encounter various terrains that require stability and confidence. That's why we have developed the only full range of hydraulic ankle/feet. These revolutionary feet were designed to provide stability and security on some of the most common terrains. From gravel and mulch, to snow and grass, the hydraulic ankle/feet self aligning properties allow you to walk confidently and comfortably to help you *get busy living*
