

Aura™ & Echo

Echo Locking Seal

V-Seal is designed for medium to firm tissue density

Aura Locking Seal

Solid seal is designed for soft tissue density

The **Aura** and **Echo Locking Seals** are internal seal systems developed as a compact and lightweight approach to securely lock the liner to the inner wall of the socket. They are designed specifically to be compatible with **Origin Silicone Liners** and **Vacuum and Expulsion Systems**.

Together the **Aura** or **Echo** combined with the **Origin OTS** are an innovative and cost effective solution for vacuum and expulsion systems.

ORIGIN™ OFF THE SHELF

- **3mm Proximal**
wall thickness
- **6mm Base**
wall thickness
- **Distal Thickness**
13mm for cushion, 21mm for locking (for Origin and Origin X Liners), 6mm distal (for Origin XV)

Origin OTS Liners, created from a medical grade silicone formula, is naturally compatible with human tissue and resistant to fluids and bacteria, which allows the liner to remain fresh and odor free. Choose from 3 varieties of Origin OTS: **Origin**, **Origin X**, and **Origin XV** (available in cushion, locking, and matrix).
