

EVOLUTION TRULY CUSTOM LINERS

Custom from top to
bottom, inside and out.

Evolution Truly Custom Liners are designed by a certified prosthetist to fit each amputee's unique limb shape. Truly custom throughout, from the proximal end to the distal end, both inside and out, Evolution Truly Custom Liners deliver consistent compression of the limb.

Evolution Truly Custom Liner Features

For uniquely shaped and sensitive limbs.

- Custom designed by a certified prosthetist
- Compatible with elevated vacuum, expulsion, and locking suspension systems
- For patients of all lifestyles and activity levels
- Optional wave feature for maximum comfort
- Silky silicone surface allows liner to slide on itself

Advanced Medical Grade Silicone

- Naturally compatible with human tissue and resistant to fluids and bacteria
- Remains fresh and odor free after each use
- Never reduces in strength or thickness
