

EVOLUTION TRULY CUSTOM LINERS

Custom from top to
bottom, inside and out.

Evolution Truly Custom Liners are designed by a certified prosthetist to fit each amputee's unique limb shape. Truly custom throughout, from the proximal end to the distal end, both inside and out, Evolution Truly Custom Liners deliver consistent compression of the limb.

Evolution Truly Custom Liner Features:

- Excellent for uniquely-shaped and sensitive limbs
- Compatible with elevated vacuum, expulsion, and locking suspension systems
- Optional wave feature for maximum comfort
- Silky surface allows liner to slide on itself for easy donning and doffing
- No coatings that can crack, peel, or wear off
- No covers that tear or run
- Advanced medical grade silicone for maximum skin compatibility
