# Performance **AMPLified**

Introducing **Renegade® A-T**, the most dynamic and durable All-Terrain prosthetic foot.

Taking K3/4 performance higher than ever, the Renegade A-T prosthetic foot sets a new standard for dynamics and durability. An integrated design delivers vertical shock absorption and All-Terrain control in a device weighing just 515 grams for superior comfort. Plus, it incorporates EnduraCore™ Technology, a proprietary composite-laminate that has up to three times the fatigue life for improved durability. This design also returns up to 35% more energy than competitive products. By preserving energy and supporting limb health, the Renegade A-T delivers unsurpassed performance on and off the court.

**EnduraCore™ Technology • Vertical Shock • Multi-Axial • Lightweight • Integrated Design**
