Appreciate the smaller things in life...

Introducing the Defender Pediatric Foot
Finally. Performance and Value in Pediatric Prosthetics.

- Newly designed for the active child to ensure smooth rollover
- Increased toe-lever length
- Exceptional energy storage and return
- Patented technology eliminating bolt holes
- Virtually maintenance-free – no bumpers to replace
- Stiffness optimization in relation to children’s weight and varied gait
- Sufficiently robust to endure children’s physical demands
- Available in six stiffness categories, sizes 16-21 cm

Freedom to run. Freedom to jump.
Freedom to play. Freedom to live.

Once again, the leader in innovation, value and technology.
