

LIMBOSS CFAB *presents*

Easy-to-modify Definitive Sockets

No smell. No carbon. No need to remake. Just heat and modify.

Ever wish you could adjust a prosthetic socket like an AFO?
With our laminated epoxy sockets, you can.

Problem area? Just use a heat gun to bump it out.

Patient lost volume? Just use a heat gun to push it in.

The possibilities are endless.

Call or text Mike today to inquire about heat-adjustable
sockets from LimBoss. Your patients will thank you!

**Adjust on the go,
no need to grind or
pad, just heat.**
