

# WHY WEIGHT...FOR PERFORMANCE? THE OP4 KNEE.

**Combining powerful pneumatics with a reliable friction brake, the OP4 knee provides smooth function without added weight.**

## BENEFITS OF THE OP4:

- Incredibly light (600 grams), less energy expenditure for the amputee
- Manufactured with Tial® for exceptional durability
- Powerful pneumatic cylinder provides smooth and responsive swing for the unlimited community ambulator
- Stance control brake engages at up to 20 degrees of flexion, releases before unweighting for a more anatomical gait
- Designed especially for the K3 ambulator weighing up to 220 pounds.

## SEE HOW THE MEDI OP4 MEASURES UP TO THE COMPETITION

We'll send you a complimentary collapsible ruler for each OP4 order placed with Medi USA through December 31, 2009.
