

# “Support for your daily life”

## LOW PROFILE M-SPINE LSO (584)

The M-Spine consists of 3 separate pieces: A corset fitted with eight (8) flexible steel stays, a covered lumbar thermoplastic panel and an abdominal thermoplastic panel.

The M-Spine lumbar-sacral orthosis is designed to support the patient at all stages of his/her recovery. The moldable panels are to be applied post-op without delay for effective immobilization, and kept in place throughout the rehabilitation phase. Later the corset, worn alone, can be adapted to provide comfortable daily support thanks to the progressive immobilization capabilities of our unique locking system featuring inter-crossed straps and flexible plastic-covered steel stays. Combined with our comfortable and breathable knitted cotton fabric, you get a result that speaks for itself: Perfect patient compliance.

- Supports from sacrum to T-9 level.
- Post-op: Following stabilizing surgery, following lumbar disk surgery.
- Degenerative pathologies: Osteoporosis, lumbar- sacral vertebrae complaint, protrusions, arthritis.
- Muscular pathologies: Muscular contractures.
- Practical and easy to fit, it adapts perfectly to your body.
- This corset acts as a corrective measure and as a support to postural defects.
- Breathable and non-allergenic, 100% cotton.
- Back is 10 ½” high
- Front is 6 ¾” High
- Back Panel is 15” high
