

Fuzion™

greater fit, function & freedom

The new Quick Fuzion Spinal Orthosis is a flexible design which makes it easier to don and doff. The orthosis limits motion and offers effective back support, while the **soft foam edges** provide maximum comfort. The lightweight Quick Fuzion Spinal Orthosis allows for anterior, posterior, and lateral control and is much easier to fit on patients needing assistance putting on the orthosis.

INDICATIONS

- Cerebral Palsy
- Osteoporosis
- Myelomeningocele
- Muscular Dystrophy
- Compression Fracture
- Burst Fracture
- Spinal Stenosis
- Spinal Muscular Atrophy
