

“I Get Around”

The C-Leg® Redefines “Getting Around”

There is no better word than “Go!” to describe Massimo and his approach to life. As a new C-Leg® microprocessor knee user, Massimo has quickly returned to his busy routine. And that suits him just fine.

Worldwide, the C-Leg microprocessor knee has helped more than 30,000 others just like Massimo get back to the business of living. It's a commitment to mobility that Otto Bock has been making for over 90 years.

To discover more about what Massimo and others are saying about “The Standard”, please visit www.clegstories.com. Or find us on Facebook, at www.facebook.com/ottobockus.
