## Husband. Father. Hero.

Brad's a hard-working husband and a loving family man. He's also an active amputee—and a dedicated prosthetist who works hard to get the best solutions for his patients.

He's also one of the first people in the US to be fit with Ottobock's C-Leg prosthetic knee system. Brad's big change led him to become a prosthetist—and meet his wife, also an amputee, who is a physical therapist.

Each step of Brad's journey has made his life a little bit richer—and made him something of a hero to everyone who knows him (just ask his dogs!).

Help us celebrate the heroes you know who push the limits everyday! Please share our C-Leg 15 Year Anniversary Photo Contest with your patients at [clegheroes.com](http://clegheroes.com)—and the chance to win the \$1,000 grand prize!
