Quality for life

# The New C-Leg<sup>®</sup>

## Confidence in the next step.

Thousands of fittings, dozens of studies — we've taken advantage of all that experience to make a great product even better. With its incredible security and new improvements, the C-Leg microprocessor-controlled knee continues as the Standard of Care for above-knee amputees.

The new, improved C-Leg knee goes great with any of Ottobock's newest feet: the lightweight Triton carbon fiber foot; the Triton Vertical Shock (VS); or the Triton Harmony<sup>®</sup> with integrated vacuum technology.

Get reliability, comfort, and security that works for your patients.
