Quality for life

## Why not the best?

### Other MPKs just don't measure up.

Don't settle for less. Get clinically proven function and unmatched patient satisfaction from the industry's Standard of Care, the C-Leg<sup>®</sup> microprocessor-controlled knee.

Kevin feels the difference every day, whether he's coaching a local youth football team or on the job as a police sergeant on a large metropolitan force.

*"I had to have the C-Leg from Ottobock. It's the only technology I can get by with. Anything less is not going to help me."*

—Kevin T., Louisville, KY
