Quality for life

True-blue Hero

One of the first to be fit with the C-Leg, Dr. Matt Bradley fought from an early age to gain greater mobility for himself. And now as an orthopedic surgeon he continues that fight—for his patients.

Working on everything from rotator cuff injuries to amputation surgeries, Matt has relied on his Ottobock MPKs for true-blue stability during critical operations—and long, hectic days.

In this 15th Anniversary year of the C-Leg, join us in applauding Matt as a C-Leg Hero. May he continue the fight for his—and your—mobility.

Win \$1,000! Share a photo showing how the C-Leg or other Ottobock prosthetic product has changed your life at www.clegheroes.com.
