

An Extra Pair of Hands

Well, more like
43 extra pairs.

We've all been there. A key employee is out sick. Jobs are piling up. And you get 3 new referrals with rush jobs.

Now you can have even more hands supporting you. Hands that have fabricated thousands of devices. All backed by our service warranty and quality control checks. But don't just take our word for it. Call us at **1-800-795-8846** to place an order. Or call your sales rep to learn about our new central fabrication locations and product and service offerings.

Finally, relax. You're in good hands.
