

The New York Times

January 3, 2002

"The C-Leg made a world of difference to me being alive or dead because it allowed me to actually come down the stairs (of the World Trade Center) normally."

— Curtis Grimsley,
September 11 Survivor

The Washington Post

January 11, 2004

"I can run. I can ride a bike... I can do anything a person with two legs can do."

— Major Andrew Lourake,
who's determined to be the
first above-the-knee amputee
to fly for the Air Force

Headlines Aren't The Most Important Thing We Make

Sure, it's nice to get great press for the work we do—but the most important feedback we get will always be from users who say that our microprocessor controlled C-Leg® Knee System makes a real and important difference in their lives.

For information on how C-Leg can enhance your practice and transform your patients' lives call **800.328.4058** today. To get a free C-Leg "In The News" poster, dial ext. zero.
