Meet our Family of AFO Products

The Otto Bock family of AFOs gives you an entire spectrum of innovative solutions to optimally meet your patients' needs: from high strength/low profile carbon fiber to heat-moldable thermoplastic with varying degrees of motion control. Now you have a range of time-saving solutions, to help your patients get on their feet faster.

Manufactured with quality in mind, our family of AFOs is competitively priced and ready to meet your AFO needs. Contact your sales representative or call 800.328.4059 to learn more or to place an order.
