

Sometimes Vanilla...

### **Sometimes Chocolate... Sometimes Tutti Frutti...**

Sometimes you and your patient need a little variety. The Journey™ and the Axtion™ add just that — plus the functionality you expect — to your daily foot menu.

#### **Get Into Axtion**

When plain vanilla high-activity feet won't do, try this great low clearance (2 1/8") foot at a great price. The Axtion delivers a smooth rollover with a dynamic heel and great energy return at toe-off.

#### **For Your Daily Journey**

When your patient needs a full-featured foot that delivers comfort and exceptional multi-axial function, order the Journey. This great low-maintenance option enhances your patient's quality of life (and maybe even their golf swing).

Both feet are backed by a three-year warranty and decades of development expertise. Our thorough testing and review means you receive a dependable foot, supported by our unmatched Professional Services staff.

To sample our foot menu, call 800.328.4058 (US) or 800.655.3327 (Canada) or visit [www.ottobockus.com](http://www.ottobockus.com) for more information. Your patients will be glad you did.
