

Engineered to be smarter.

Maintenance free, no bumpers to replace

Motion Sphere Joint offers smooth rollover and controlled multi axial movement

Carbon fiber toe plate for excellent energy return at toe-off

Separate carbon fiber heel plate for comfortable heel strike

Journey. Great thinking from the ground up.

Starting from the comfortable urethane core, adding the energy-return of carbon fiber, and topping it off with exceptional multi-axial function, the Journey delivers from heel to toe. This great low-maintenance option enhances your patient's quality of life (and maybe even their golf swing).

Backed by a three-year warranty and decades of development expertise, our thorough testing and review means you receive a dependable foot, supported by our unmatched Professional Services staff.

To make sure your patients are on solid footing, call 800.328.4058 (US) or 800.655.3327 (Canada) or visit www.ottobockus.com for more information. Your patients will be glad you did.
