

# PEASTER & WILLIAMS Central Fab

With over 50 years combined experience in the prosthetics industry, Peaster and Williams specializes in both old and new styles of prosthetics, including: wood, leather, carbon composites, plastics, and state of the art myoelectrics.

*the old...*

we still  
manufacture  
sockets  
using wood  
or leather  
as well as...

*the new...*

...high tech  
carbons,  
plastics,  
and cutting  
edge myo-  
electrics.

You may have called on us in the past as the SPS Central Fab, or as the Hanger Seafab in Alpharetta, GA. But now, as an *independent* Central Fab, our expertise can help you provide for your patients a full range of prosthetics at a reasonable price.

For pricing and ordering information, contact Johnny Peaster or Jim Williams:
