

YOUR BODY CHANGES CAN YOUR DEVICE ADJUST?

NEW REVOLIMB® ORTHOTIC & PROSTHETIC KITS

Applications

- Adjustable Socket Designs
- Energy Return Carbon AFOs
- Adjustable Brims
- Door & Panel Closure Systems
- Adjustable Carbon Braces
- Adjustable Boney Locks
- Adjustable UE & Myos
- Lanyard Systems

The Boa® dial is easy to use and can be operated by those with compromised hand function. The high power system has a mechanical advantage that far exceeds what can be done with a traditional strap or hook & loop. Mid power kits are also available for light duty and UE.
