

What's Jennifer's big secret?

Jennifer wears a Providence brace to treat her scoliosis but her friends will never know, unless she decides to tell them. That's because she only wears her brace overnight, at home. A past study has shown that overnight bracing can be just as effective as daytime bracing* — if not more, since it boosts compliance. Spinal Technology is the exclusive manufacturer of the Providence Nocturnal Scoliosis Orthosis.

What's Jennifer's big secret? At school, she's like any other 12 year old girl; our team of orthotists, CSRs, mold & finish

technicians, and experts in foam & plastics at Spinal Technology are working to keep it that way.

Find out for yourself. Call to place an order, and we'll show you how Spinal Technology can help you achieve better spinal orthotic results for your patients.
