BRACING SOLUTIONS

Are the patients you treat unwilling to accept any compromise to their life-style after an injury -- or as they grow older?

You can count on Townsend Design's functional and OA knee bracing solutions to maximize your patients' physical performance. We've braced professional skiers, hall of fame quarterbacks, kite surfers, mountain climbers, extreme athletes and everyday patients.

The superior function, fit and suspension of our bracing products ensures positive patient outcomes. Our braces go where your patients go, and don't end up in the closet.

Please visit our web site for details about our proprietary technology and fabrication, as well as our newest bracing solutions.
