

You're always there for your patients.
And we're always there for you.

Circle # 18 on Readers' Service Card

The relationship between practitioner and patient is truly unique. It's so much more than merely office visits and checkups. It's about putting your skills to work to get your patients back on their feet again. That's why we're dedicated to providing you with a wide range of proven, practitioner-specified prosthetic components, parts and products—each designed with your patient in mind. And that's no fish tale.

“ Knit-Rite enjoys the same great partnership we have had for years with Seattle Systems, in part because we continue to have strong demand for their wide range of well established, high-quality prosthetic components and orthotic products. ”

Mark Smith, CP, Vice President
Knit-Rite, Inc.
