

Foot loose?

Our top-quality adapters are perfect for any practitioner's assembly needs. They're manufactured with precision using computer numerically controlled machinery. We maintain all tolerances to within .005". Along with superior hair-thin tolerances comes a Dacromet® coating on all set screws which drastically reduces screw corrosion, binding and galling. Combine this with the same titanium and aluminum used in airplanes, the space shuttle and space station, and you're assured a lightweight, quality product—subjected to rigorous ISO 10328 test standards to substantiate and ensure patient safety over time.

Fancy-free.

That's right. Get this wall mounted storage cabinet FREE when you purchase Seattle Systems' adapters—a \$500 value. It's a great way to organize your components and view inventory without opening the doors, and you don't lose valuable floor or counter space. The overall dimensions are 32" wide x 27" tall x 7" deep. Best of all, it comes absolutely free with a minimum purchase (call for details). So order your prosthetic adapters today and get a free storage cabinet. Call 1-800-248-6463. Or visit our website at www.seattlesystems.com.
