

# SAY GOODBYE TO SWEAT

## Alpha SmartTemp® Gel Liners Now Available

The heat absorption technology of Alpha SmartTemp is now available in a TPE gel liner! By blending TPE gel with phase change materials, amputees preferring gel liners now have a solution that delays the onset of sweat before it starts and stabilizes the skin temperature to keep the amputees comfortable all day.

### KEY FEATURES

- Proprietary blend of TPE gel with heat absorption technology
- Proactively absorbs and stores heat from a residual limb delaying the onset of sweat
- One-way stretch fabric controls pistoning
