Ohio Willow Wood’s P-POD products were created to help children with limb differences face life on equal footing…through all the stages of their growth.

The P-POD SACH and P-POD Impulse® feet deliver the right amount of foot function for a toddler’s first steps up to their shenanigans as an energetic youngster. P-POD SACH feet are intended for children first learning to walk. For children developing a more mature gait, the P-POD Impulse is ideal.

**P-POD Family of Products:**
- Pediatric Alpha® Liners
- Pediatric Feet
